

# PERCY SIYU TENG

## WORK EXPERIENCE:

### Alibaba Group

*Software Engineer intern*

*May 2017 – Present*

- Developed UI for an Operation platform that automates application deployments and monitors hosts. Built using Facebook **React.js**.
- Produced a tutorial and specification for the front-end team regarding JavaScript unit testing with **Mocha, Enzyme, and Expect**.

### Avaya Inc (Zang)

*Software Engineer intern*

*May 2016 – April 2017 (1 year)*

- **Forget me not** – Avaya holiday web App which I built and deployed that offers a fast and convenient method of future voice/text messages delivery.
- Built with **Angular.js, Node.js**, MongoDB and Zang.io
- Used by over 600 users on each holiday release globally.

### Surewin Information Technology Co.Ltd

*Software Developer intern*

*May 2015 – August 2015 (4 months)*

- **FT** - An analytic C# Windows software I developed that automates buying and selling according to clients' real time response and user parameters.
- Created an advanced financial **auto-trading algorithm** by implementing and combining general arbitrage and grid theories using C#.

## PROJECTS & ADDITIONAL EXPERIENCE:

### Orbit – React native | Node.js | MongoDB

- A **Hybrid (Android & iOS)** event-based social networking mobile app that displays nearby Facebook events as well as local events generated in the app using Google maps.
- Provides real-time chat, secure in-app use, custom profiles and more functionalities.

### SocialQ – Swift | Java

- A **Native Android & iOS** social networking mobile app that gathers all personal ads and extracurricular activities in one easily accessible and clutter-free platform.

### Tutoring – University of Toronto

- Tutored over 100 students per semester on a programming course in **Python**
- Students who I tutored achieved 4.0 average course GPA.

## TECHNICAL SKILLS:

- Full-Stack Developer
- Front-end: React.js, Angular.js, JQuery
- Back-end: Node.js, PHP
- Android (Java), iOS (Swift)
- Hybrid Mobile Development: React Native
- MongoDB, MySQL

## EDUCATION:

### Queen's University 2013-2018

(Honored) Bachelor of Computing  
Software Design / Development  
Dean's honour list 2014 - 2015
