PERCY TENG

WORK EXPERIENCE:

Alibaba Group

Software Engineer intern   *May 2017 – Sep 2017 (4 months)*

- Automated application deployments by developing the front end for an Auto-Operation Platform. Built with **React.js** and **Webpack**.
- AOP efficiently reduced the average deployment cycle from one month to two weeks.
- Transferred JavaScript unit testing knowledge with **Mocha**, **Enzyme** and **Expect** to the front-end team by hosting a workshop.

Avaya Inc (Zang)

Software Engineer intern   *May 2016 – April 2017 (1 year)*

- Offered clients a fast and convenient method for future voice/text message delivery by developing the Avaya holiday web app - Forget me not.
- Built with **Angular.js**, **Node.js**, **MongoDB** and **Zang.io**
- Concurrently used by over **2000** global users on each holiday release.

Surewin Information Technology

Software Developer intern   *May 2015 – August 2015 (4 months)*

- FT - An analytic Windows software I built in C# that automates buying and selling according to clients' real time response and user parameters.
- Created an advanced financial **auto-trading algorithm** by implementing and combining general arbitrage and grid theories using C#.

PROJECTS & ADDITIONAL EXPERIENCE:

Winnk – *React native | Node.js | MongoDB | Express.js | Socket.io*

- A **Hybrid** (**Android & iOS**) mobile social/dating app that eliminates approaching-anxiety by signalling to the user if there are interested parties in the vicinity. Available on **Google Play** and **iOS beta testing**.
- Awarded second place in enLight Hackference Toronto for "the most innovative social/dating application".
- Links: App Store, Google Play

SocialQ – *Swift | Java*

- A **Native Android** & **iOS** social networking mobile app that gathers all personal ads and extracurricular activities in one easily accessible and clutter-free platform.

Tutoring – Top Knowledge Institution (*University of Toronto*)

- Tutored over 100 students per semester on a programming course in **Python**
- Students attending my tutorial sessions averaged a 4.0 course GPA.
